Date of Enlistment	Date of Discharge	Duration of Service	Date of Birth
13 May 2019	12 Dec 2020	19 months	XXXXXX

○ Key Experience / Accomplishments

- Managed and sustained C#-based publication management program
- Designed ReactTS-based system for all services / Developed many components that can be re-used / Text and Excel Viewer / Implemented Messenger page
- Developed ReactJS-based asset management system and designed the page's Model and View
- Developed components using Antd based on React
- Analyzed JSP-based system codes

○ Reason for Recommendation

SGT Park, Junwon displayed exceptional SW development skills and greatly contributed to the Cyber Operations Command with his passion and responsibility when conducting missions. He conducted front end development missions and designed and developed various system pages. Even though his main development field is not front end, he led by example and conducted front end development. Through his instincts and research, he increased the program's completeness by applying user friendly designs.

Despite working frequent overtimes, SGT Park displayed great attitude and responsibility to complete his missions and was an exemplary service member. SGT Park has great capabilities, attitude and talent to contribute to software development. Therefore, I, the Cyber Operations Commander, give my fullest recommendation to SGT Park, Junwon.

Dec. 15, 2020

Commander, ROK Cyber Operations Command
